

Electronic Data Interchange (EDI) Standards Maintenance Group (SMG)

Project Lead: David Buckley

Report Date: Jul 2024

Business purpose

This group processes all maintenance Work Requests for the EDI Standards: EANCOM, GS1 XML, GS1 UN/CEFACT XML or GS1 EDI Business Terms (Semantics / Dictionary). It acts as a pool of experts for all EDI work and coordinates with associated Mission Specific work groups.

Stakeholders

SDL	David Buckley
CE/Sol Liaison	Piergiorgio Licciardello
SMG	Piergiorgio Licciardello / Miklós Bolyky
AG Liaison	Tom Eric Schmidt (Storck)
Chairs	Tom Eric Schmidt (Storck), Roman Strand (GS1 Germany)

Last 90 days

- Clinical Trials continues to generate new requirements.
- Ongoing processing of GS1 EDI maintenance requests.

Risk

- Celebration of 35 years of EANCOM went a bit under the radar ☹️

Next 90 days

- Ongoing processing of GS1 EDI maintenance requests.
- Detailed plans for GS1 XML 3.7, which will include Clinical Trial updates, and EANCOM next release.
- Incorporation of Clinical Trials Implementation Group.
- EDI requirements from EU deforestation regulation.
- Pilot process on Code List harmonization across GS1.

Risks

- Eliminating all GDD references in standard & guidelines.
