Mission Specific Work Group (MSWG)

Project Lead: J. John RYU (GS1 GO)

Report Date: July 2024 Expected project close: Q3 2024

Business purpose

Counterfeiting is a growing problem damaging the global economy. More effective enforcement on national and regional level is needed. Various approaches and different emerging solutions are being proposed to combat counterfeiting, diversion and illicit trade. Divergent approaches and solutions pose a risk of adding complexity and cost to the supply chain and they also conflict with GS1 standards and standards-based implementations

Key issues and risks

 Need to extend expected project close date to apply correct wording for RFID.

Accomplishments this period

eBallot approved Technical Implementation Guideline

Upcoming period activities

- Hold off on publication and ratification to apply correct wording for RFID
- Start community review and conduct eBallot
- Close out group
