Electronic Data Interchange (EDI) Standards Maintenance Group (SMG)

Project Lead: David Buckley

Business purpose

This group processes all maintenance Work Requests for the EDI Standards: EANCOM, GS1 XML, GS1 UN/CEFACT XML or GS1 EDI Business Terms (Semantics / Dictionary). It acts as a pool of experts for all EDI work and coordinates with associated Mission Specific work groups.

Stakeholders

SDL	David Buckley
CE/Sol Liaison	Piergiorgio Licciardello
SMG	Piergiorgio Licciardello
AG Liaison	Tom Eric Schmidt (Storck)
Chairs	Tom Eric Schmidt (Storck), Roman Strand (GS1 Germany)

Last 90 days

- Publication of XML 3.6 & associated Clinical Trails messages
- Clinical Trials Business Terms (Semantics / Dictionary)
- Ongoing processing of GS1 EDI maintenance requests
- Agreeing maintenance process for GS1 EDI Business Terms (Semantics / Dictionary)

Risk

- Publication tools for EDI business terms allowing easy access and reuse

Next 90 days

- Ongoing processing of GS1 EDI maintenance requests.
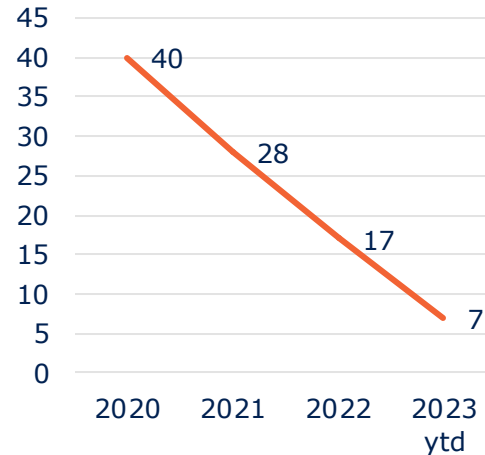

Risks

- Lack of tool to deliver the GS1 EDI Business Terms (Semantics / Dictionary) to leverage the semantic process (e.g., sharing definition across technologies).

Electronic Data Interchange (EDI) Standards Maintenance Group (SMG)
