

# GSMP Electronic health record patient demographics in GS1 barcodes MSWG

project Lead: Greg Rowe

Report Date: May 2023  
Expected project close date Q1 2024

## **Business purpose**

- The objective of the MSWG is to build a set of new Application Identifiers to support the offline capturing / verification of patient demographic information. This will result in a General Specification Change Notice being developed

## **Key issues and risks**

- None at this time

## **Accomplishments this period**

- Team is developing the BRAD
- Working to secure IN & Out of Scope, Business Requirements and Use Cases
- Group is also working on securing key definitions for: Definitions for EHR (Electronic Health Record), EPR (Electronic Patient Record) and EMR (Electronic Medical Record)

## **Upcoming period activities**

- Clinical experts (from the Clinical Transformation Committee and ICCBA) invited to the 25 May team call to discuss blood type
- Continue BRAD development
  - Secure definitions, In & Out of Scope and BRs
- Potentially motion BRAD to Community Review on the 25 May team call
