Global Product Master Data (GPMD) Standards Maintenance Group (SMG) (1 of 3)

Project Lead: Bernard Faibella

Business purpose

This SMG will process all applicable work requests to maintain the GS1 Product Master Data standards. The primary focus is the GS1 standards used for product master data including: • Product Master Data Standards • GS1 Attributes, definitions, code lists, and guidance • GDSN solutions • GDSN Validation Rules • Global Data Model Standard • Attribute Definitions for Business. Additionally, the GPMD SMG also acts as a pool of experts for maintenance work efforts impacting Global Product Master Data and coordinates with associated Mission Specific work groups.

- None

Global Data Model (GDM) Global Sub Team Standards Maintenance Group (SMG) (2 of 3)

Project Lead: Tasha Wiehe

Business purpose

This sub-team will process all applicable work requests to maintain the GS1 Global Data Model standards:
- Global Data Model
- GDM Attribute Implementation Guide
- GDM Market Stages Guideline

This group operates as a sub team of the GMD SMG. It also serves as the GDM Global Maintenance group, per the GDM Governance Manual, and operates collaboratively with GDM Regional and Local Maintenance Teams. All WR activity is reported on the GMD SMG.
