

Datamax Corporation Printer Summary Report

Printer

Manufacturer	Datamax Corporation
Product, Family	DMX-M-4208, M-Class
Configuration Tested	FCC and ETSI 302-208
GSRN of the Printer	95011012600000438
Name/ GSRN of the reader module	SIRIT (SAMSys) MP9311 95011012600000179
Frequency Bands	862-870 MHz <input checked="" type="checkbox"/> 902 – 928 MHz <input checked="" type="checkbox"/> 950 – 956 MHz <input type="checkbox"/>
*Tested Range:	1 meter
Notes	Models in this product family, utilizing the identical reader module, may be as interoperable as the tested printer. See printer manufacturer for details.

IC

Name/GSRN of Certified IC	Impinj Monza 1A Tag IC 95011012600000087
Inlay Used	Avery Dennison Runway
Frequency Bands	862-870 MHz <input checked="" type="checkbox"/> 902 – 928 MHz <input checked="" type="checkbox"/> 950 – 956 MHz <input checked="" type="checkbox"/>
*Tested Range:	1 meter
Notes	Inlay configurations that utilize the identical certified IC may be as interoperable as the tested inlay. See printer manufacturer for selection of inlays for this IC.

*The distance between the written label and QE reader antenna
IC – Integrated Circuit
