

New Healthcare GTIN Allocation Rules MSWG

Report Date: April 2026
Expected close date: June 2026

Project Lead: Greg Rowe

Business purpose

- Update the current Healthcare GTIN Allocation Rules Standard to make the content applicable to today's environment.
- Over the past 5 years since the original standard, the business environment and needs have changed.

Key issues and risks

- To mitigate risk, weekly calls and two physical meetings scheduled (31 March/01 April & Standards event)

Accomplishments this period

- Team conducted weekly calls and a two-day physical / virtual meeting in Brussels at the GS1 Global Office - completed all comments in the team review spreadsheet
 - 10 attendees in person and 25+ virtual including many North American attendees
- Team has brought the timeline back on track for a June delivery date

Upcoming period activities

- Conduct full-day session at the GS1 Standards Event
- Team to review clean Draft Standard in preparation for the Standards Event session
- Look to motion Standard to Community Review at Standards Event
