GSMP Electronic health record patient demographics in GS1 barcodes MSWG

Project Lead: Greg Rowe

Business purpose

The 2nd and final phase of the MSWG is to develop an implementation guideline to support the implementation of the Global Service Relation Number (GSRN) along with other complementary GS1 identifiers e.g., the Service Relation Instance Number(SRIN), AIDC Media Type Identifier, Version Control Number (VCN) and the newly created demographic identifiers.

Key issues and risks

- None at this time

Accomplishments this period

- Team continues to review and resolve the over 30 comments. The review process to resolve them is taking longer than expected due to the complexity of comments
- The team is close to completing them and should complete the review process by mid-August
- Scorecard made red as it was expected to complete by end of June

Upcoming period activities

- Complete the Comment Review process
- Motion to eBallot
- Ratify guideline
- Close the MSWG
