GSMP Visibility Standards Maintenance Group (SMG)

Project Lead: Greg Rowe

Business purpose

The SMG maintains updates to GS1standards that support visibility, physical event capture and sharing standards such as:
• Global Traceability Standard
• Electronic Product Code (EPCIS) and Core Business Vocabulary Standard

Stakeholders

SDL	Greg Rowe
CE/Sol Liaison	Robert Beideman
SME	Craig Alan Repec
AG Liaison	Elizabeth Waldorf
Chairs	Elizabeth Waldorf Sven Bockelmann

Last 90 days

• Team completed the Comment Resolution process
• During the resolution process, the SMEs discovered a number of breaking defects in the EPCIS/CBV 2.1 drafts
• The SMEs recommend a 2nd Community Review which will allow for formal request of the required revisions
• WR – 25-195 – 'masterDataAvailableFor' – passed eBallot
• Work on WR- 25-155 & 25-140 - these WR are being incorporated into the EPCIS/CBV 2.1

Next 90 days

• Conduct a 2nd Community Review for the EPCIS/CBV 2.1 (WR-24-281) – Starts in February
• Review comments that come in during the Community

Risks

• Completion of the EPCIS/CBV standard based on above reasons

GSMP Visibility Standards Maintenance Group (SMG)

Publication deliverables

1	Update EPCIS/CBV 2.1	Q2 2025

Work Request activity by year

2023: 1
2024: 1
2025: 8
